

## Sale of Class Materials

By Rick Stuart, CAE, CDEI, TEAM Consulting

I have sold 50% of my class material to Brad Eldridge, MAI, CAE, who is also a TEAM member. Several of you already know Brad through his teaching and work with TEAM and also his teaching and activities with IAAO (International Association of Assessing Officers). Brad shares my passion for education and professional development.

I will continue teaching but hope to slow down some. The main difference you will see is that all requests for education will go to Brad. You as the coordinator may request any TEAM instructor that you wish. Several of you are accustomed to using me, and I will still be available. If a requested instructor is not available or you are just interested in someone of your choice instructing some workshops, Brad will work with you on that.

Rick Stuart

Brad Eldridge

This partial sale has no effect on any workshops you already have scheduled, and there are no thoughts on changing our pricing in the near future.

Thank you for all of your support over the years and for using the material. I look forward to seeing you in the near future.

If you have questions, please contact me at [r17stuart@gmail.com](mailto:r17stuart@gmail.com) or 785.259.1379 or Brad at [eldridge.brad@gmail.com](mailto:eldridge.brad@gmail.com) or 785.550.0945. ❖

## Attention AAS Candidates

The Kansas County Appraisers Association (KCAA) is providing a rare opportunity to help you potentially obtain your AAS (Assessment Administration Specialist) designation.

KCAA is offering the required IAAO 402—Tax Policy course followed by the TEAM AAS Case Study Review workshop. The course and the workshop are infrequently offered, and this is a chance to knock

both of these off your to-do list. (Of course, you have the choice of attending one or both.)

The IAAO 402 course will be Monday and Tuesday, Feb. 24–25, 2020. The AAS Case Study Review will be held the following week on Monday–Wednesday morning, March 2–4, 2020. Both the course and workshop will be held at the Shawnee County Annex, 1515 NW

## Crapo Honored at IAAO Conference

Ed Crapo

Ed Crapo, CFA, ASA, AAS, FIAAO, was recognized by IAAO President Tim Boncoskey at the recent IAAO Annual

Conference in Niagara Falls, Ontario, Canada. Ed was given a Presidential Citation for his long-time service to our profession and to the IAAO. Ed is completing his final term as Alachua County appraiser in Gainesville, Fla.

Ed has earned three professional designations and been honored with many awards from state, local and national organizations. He served as president of the IAAO in 2000-2001, and also as president of his state appraiser's association and his local chapter of the American Society of Appraisers (ASA). Ed has made numerous presentations and has served as a consultant both nationally and internationally. Congrats, Ed! ❖

Saline, in Topeka, Kan.

Cost for IAAO 402 is \$450. Cost for the AAS Workshop is \$350. Upon registration, participants will receive materials by email that can be printed and brought to class.

## New Workshop, Changes and Updates

By Rick Stuart, CAE

► In response to a request from an education coordinator, there has been a change to the workshop **How to be a Better Manager**. The two-day version has been removed and replaced with a one-and-a-half-day version. This version uses the one-day workshop but adds some case study problems that allows for small group participation and then class discussion. Whether the participant is an experienced manager, beginning manager or staff, this hands-on application has proven to be very beneficial.

► **The Valuation of Residential Green Properties** and **Unique and Challenging Homes** have also been recently updated.

For more information or to book these workshops, contact Brad Eldridge, MAI, CAE, at [eldridge.brad@gmail.com](mailto:eldridge.brad@gmail.com) or (785) 550-0945. ❖

## Coming Soon: New TEAM Workshops

Now is the time for education coordinators to be adding two new TEAM workshops to their 2020 training schedule: *Valuation of Fast Food Restaurants* and *Fee Simple & Property Rights Valuation Issues for Commercial Properties*.

### ► Valuation of Fast Food Restaurants (1 day)

This workshop takes a look at Fast Food properties, also known as Quick Service Restaurants (QSRs), in the restaurant industry. Current trends in QSRs will be reviewed, as well as real-world case studies that address first-generation vs. second-generation users, build-to-suit, credit tenant/long-term lease, and property rights valuation issues. Workshop material address USPAP, highest and best use, the cost-sales comparison and the income approaches.

### ► Fee Simple & Property Rights Valuation Issues for Commercial Properties (1 day)

Assessors are challenged by the need to develop Fee Simple values for property that sells based on leases in place at the time of sale. This workshop looks at background, terminology, and appraisal concepts for Fee Simple valuation, as well as suggested appraisal practice and possible solutions to resolving common issues that surface in the valuation of leased commercial property. Workshop material addresses USPAP, highest/best use and market analysis, as well as the income, cost and sales comparison approaches to value.

### Schedule your workshop today!

## Interesting Buildings *By Rick Stuart, CAE, CDEI*

Over the years I have collected a very large number of photos. They are actually in a file titled "Weird Buildings," but I thought a more appropriate title would be "Interesting Buildings." My intention is to publish a couple each issue. If you have picture(s) of building that have piqued your interest, email them to me at [r17stuart@gmail.com](mailto:r17stuart@gmail.com). I will add to the file and the newsletter.

Thanks to Ken Olive of Camdenton, Mo., for these photos (*right 1-3*) and the following explanation:

"I was sitting on Crystal Beach, Texas, in early July and saw the following: Due to hurricanes and flood zones for the sites all structures are 12-25 feet off the ground. The piers are 12x12 wood timbers!

The first is a single-wide mobile home: Not my idea of a beach house.

The 2nd is a dome with framed structure. Could not get around to get a full picture but, it is on piers also. The 3rd is a sign on the beach

Thanks to Linda Cwiek, retired Rhode Island assessor, for this barn photo that is referred to as the "Fish House."

### Crystal Beach, Texas

at the boundary of the Audubon bird sanctuary tract of land. Seems like a very effective sign!" ❖

## Tiny is Now Very Big

Recently there have been posts in the IAAO Open Forum Digest, and even some presentations at the IAAO Conference in Niagara Falls, on tiny homes. What was once a potential fad is a reality for almost everyone—and *are valuation challenges*.

TEAM Consulting developed a one-day workshop titled *Unique and Challenging Homes* in 2016 and updated the material in 2017 and 2019. The workshop covers all three approaches to value for homes such as tiny, container, straw-bale, hemp and many more. If you have homes that look like the ones below, contact us about this workshop. **Contact Brad Eldridge,**

**Holiday spirit:** Office tree features business cards transformed into ornaments, gifts for Toys for Tots, and the iconic leg lamp from A Christmas Story.

## An Assessor Christmas Tree

*Sent by Dale D. Butalla, CIAO-M, Commercial Appraiser/Deputy Assessor, Joliet Township Assessor's Office, Joliet, Ill.*

Hi Rick,  
I wanted to thank you for the fine job you did with the 300 course last week (week of June 10). When I asked you for a business card last week I don't think I explained why. I've been collecting business cards for several years now. Along with having the contact information if needed, they serve an additional purpose. I laminate them and they get a bow and hook added (for 1 month a year). They are then hung on the office Christmas tree. While most are from Illinois, I do have several cards from other states.

The tree is a little different. As mentioned, the ornaments are assessor business cards. The garland is an old fiberglass tape measure. The star is two PRC's with the assessor's image in the middle. The train I brought from home, and the packages you see are collected by the office for Toys for Tots. You might even notice something in the background that might be considered a major award from A Christmas Story. ❖
